Gender Analysis of Health Attitudes and Behaviors: Focus Group Guides for Male RMNCH Service Users or Non-Users

FGD Guides for Male Service Users

Date:	Name of Facilitator:
Locality:	Name of Note-taker:
Sub-county:	Participant category: Male Service Users
County:	Age group (circle): 25-49
Number of participants:	#partner pregnant: #small children:

Facilitator notes:

- Before beginning, the facilitator should get signed consent forms from everyone who will be participating.
- When the group is assembled, before the discussion begins, the facilitator should tell the group: Hello everyone. Thank you for taking the time to speak with us today. My name is _____ and I work with the Afya Halisi project. I wanted to take some time to talk to you today about your experiences about health care services. My colleague, _____ is here to assist me by taking notes. Your participation in today's discussion is voluntary. You can choose to leave at any time. You will not lose any benefits if you do not participate. You will also not gain any additional benefits if you do participate. Everything we discuss here is confidential. Nothing that you say will be linked to your name. We will be looking at the responses of the group as a whole, not the responses of specific individuals. The discussion should take no more than 2 hours. Before we begin, do you have any questions?
- Respond to all questions, then ask, Would you all like to continue?
- Excuse anyone who does not wish to continue, and then begin the discussion.

I. Experience with ante-natal care services

1. When your partner was last pregnant (or for her current pregnancy), how many ante-natal care visits did she attend? Why did she choose to attend this many? (*Probe: Who or what else influenced her decision?*)
2. How did you feel about your wife/partner's ante-natal care visits? How did you support her to attend?
3. Did you attend with her? Why or why not?
4. What type of provider did she see for her ANC visit? Was it a male or female?
5. How did the provider treat her? (*Probe: If they say "well" or "bad" or another short answer, ask, "What did they do that made her feel that she was being treated well?"*) Did she feel comfortable and respected? Why or why not?

6. Do you think she would have been treated differently if you had been with you? Why or why not? (*If most of the men did attend ANC with their partners, ask, "Do you think she would have been treated differently if she had been alone? Why or why not?"*)

II. Experience with labor and delivery services

1. Where did your partner deliver her last baby? (For those whose partners are pregnant for the first time, ask, "Where do you plan to deliver your baby?") What led you to make this decision? (Probe: Who or what else influenced your decision?)
2. For those whose partners delivered in a facility, who accompanied her? Who decided that that person should accompany her? (Probe: If husbands/partners are not mentioned here, ask, "Did you accompany her? Why or why not?")
3. How did the provider treat her? (Probe: If they say "well" or "bad" or another short answer, ask, "What did they do that made her feel that she was being treated well?") Did she feel comfortable and respected? Why or why not?
4. Do you think she would have been treated differently if you had been with her? Why or why not? (If most of the women did go with their partners, ask, "Do you think she would have been treated differently if she had been alone? Why or why not?")
5. Based on your experience, what would tell a friend who is trying to decide whether or not for his wife to deliver in the same facility?

III. Experience with FP services

1. Have you ever received information or counseling about Family Planning? If yes, what were you told?
2. What are your plans for using or not using family planning in the future? What is the reason for this decision?
3. Who do you discuss Family Planning with? Who makes the final decision about whether or not you should use a method, and the type of method?

IV. Experience with nutrition and WASH

1. Who does the following in your household:
 - water collection for home use
 - cleaning the area in and outside the house
 - livestock living in the home compound
2. What are the challenges for children/girls/women in using latrines and accessing menstrual supplies?
3. Do care givers place toddler boys and toddler girls in different settings for play or while the care giver is conducting household chores? If yes, describe those differences.
4. Who determines the type and amount of food given to the boy child? The girl child? (*Probe, what is father's role? What about grandmother/mother-in-law?*)
5. What makes it harder to feed children with a variety of foods (such as meat, milk, green vegetables, fruit)?

6. What does the husband do to support his wife in breastfeeding or feeding young children? (*probe what is the man's role in feeding infants/young children*)

Facilitator notes:

- After the last question has been asked, tell the participants: We have now come to the end of our discussion. Before we close, does anyone have any final questions for me?
- Answer the remaining questions, then thank respondents for their time.
- Let participants know if there is anything else they need to do to receive travel reimbursement or other administrative actions.

FGD for Male Service Non-Users

Date:	Name of Facilitator:
Locality:	Name of Note-taker:
Sub-county:	Participant category: Male Service Non-Users
County:	Age group (circle): 25-49
Number of participants:	#partner pregnant: #small children:

Facilitator notes:

- Before beginning, the facilitator should get signed consent forms from everyone who will be participating.
- When the group is assembled, before the discussion begins, the facilitator should tell the group: Hello everyone. Thank you for taking the time to speak with us today. My name is _____ and I work with the Afya Halisi project. I wanted to take some time to talk to you today about your experiences about health care services. My colleague, _____ is here to assist me by taking notes. Your participation in today's discussion is voluntary. You can choose to leave at any time. You will not lose any benefits if you do not participate. You will also not gain any additional benefits if you do participate. Everything we discuss here is confidential. Nothing that you say will be linked to your name. We will be looking at the responses of the group as a whole, not the responses of specific individuals. The discussion should take no more than 2 hours. Before we begin, do you have any questions?
- Respond to all questions, then ask, Would you all like to continue?
- Excuse anyone who does not wish to continue, and then begin the discussion.

I. Experience with ante-natal care services

1. When your partner was last pregnant (or for her current pregnancy), how many ante-natal care visits did she attend? Why did she choose to attend this many? (*Probe: Who or what else influenced her decision?*)
2. How did you feel about your wife/partner's ante-natal care visits? How did you support her to attend?
3. Did you attend with her? Why or why not?
 - Facilitator note: If no one in the group has a partner that attended any ANC visits, ask, "Would you have wanted to attend with her? Why or why not?"
4. What type of provider did she see for her ANC visit? Was it a male or female?
 - Facilitator note: Skip if no one in the group has a partner who attended any ANC visits.
5. How did the provider treat her? (*Probe: If they say "well" or "bad" or another short answer, ask, "What did they do that made her feel that she was being treated well?"*) Did she feel comfortable and respected? Why or why not?
 - Facilitator note: If no one in the group has partners who attended any ANC visits, ask, "How do you think providers treat women during their ANC visits? If they give a one word answer, like, "well" or "bad" probe: What do they do that makes you say this?"

6. Do you think women are treated differently if their partners are with them? Why or why not? (If most of the men did attend ANC with their partners, ask, “Do you think women would have been treated differently if they go alone to ANC? Why or why not?”)

II. Experience with labor and delivery services

1. Where did your partner deliver her last baby? (For those whose partners are pregnant for the first time, ask, “Where do you plan to deliver your baby?”) What led you to make this decision? (Probe: Who or what else influenced your decision?)
2. For those whose partners delivered in a facility, who accompanied her? Who decided that that person should accompany her? (Probe: If husbands/partners are not mentioned here, ask, “Did you accompany her? Why or why not?”)
3. For those whose partners did not deliver in a facility, who was with her during delivery? Who decided that that person should be with her? (Probe: If husbands/partners are not mentioned here, ask, “What about you?”)
4. How did the provider treat her? (Probe: If they say “well” or “bad” or another short answer, ask, “What did they do that made her feel that she was being treated well?”) Did she feel comfortable and respected? Why or why not?
 - Facilitator note: If no one in the group has a partner who delivered in a facility, “How do you think providers treat women when they come to deliver? If they give a one word answer, like, “well” or “bad” probe: What do they do that makes you say this?”
5. Do you think women are treated differently if their partners are with them? Why or why not?
6. Based on your experience, what would tell a friend who is trying to decide whether or not for his wife to deliver in the same facility?
