

Determining How Midwifery As A Profession Is Perceived By Men And Women, And How Gender Impacts Success Of Men Versus Women As Nurse-Midwives In The Lake And Western Zones Of Tanzania

Gender Assessment of Pre-service Midwifery: Focus Group Discussion Guide for Fathers and Partners of Pregnant Women

INTRODUCTION (5 minutes)

Objective: Get to know the interviewee, make them aware of the purpose of the interview, and establish an open and honest atmosphere for discussion.

Welcome. My name is [name of interviewer]. I would like to thank you for your willingness to participate in this assessment. [Give a short introduction about your role in the project and a brief overview of MBM-RTz project.]

This discussion is part of an assessment that seeks to understand gender relations and your perception on the midwifery profession and factors that could facilitate or inhibit gender equality in education environment which in turn could impact the success of men or women as midwives in the Lake and Western Zones of Tanzania. We would like to hear your opinions on some issues that if addressed gender will be integrated in the implementation of all key activities of MBM-RTz project. We are expecting to compile all the necessary information we get from you and other interviews to gain insight on the gender issues and how they could be addressed with resources at our disposal.

You were selected because you were identified as a relevant and influential respondents in this assessment. Please feel free to give as much information as you can in response to the questions and please ask me for clarification if you don't understand a question.

I want you to know that your participation in the assessment is completely voluntary. [Participant is handed copies of all informed consent documents and confidentiality forms.] Do you want me to read these documents to you? [If participants says yes, or is having difficulty reading the documents, the interviewer will read all documents aloud.] Do you have any questions? Do you agree to the content on each form? [If the participants agrees will sign the forms.]

If the content of the focus group discussion becomes too sensitive, emotional, or makes you feel uncomfortable, you have the option to end the discussion at any point. The discussion will be recorded using this machine [hold up machine]. It is very important that we record this FGD in order to capture your opinions in detail. After the discussion, the recording will be transcribed and the tape will be

destroyed. Remember, all contributions to the discussion will be confidential and all personal information will be removed from the transcription. Do you understand? Do you have any questions?

This discussion will take approximately sixty minutes. Can I begin the recording? Can we begin?

WARM-UP STAGE

1. First, I'd like you to learn a bit about each other, so let's go around the room and introduce yourself. Please tell us your first name, a little bit about your family, and anything else you'd like to share with us
2. Definitional questions: What does gender mean to you? Any training on gender? Can you briefly explain midwifery as a profession?

CENTER OF DISCUSSION (50 minutes)

1. (a) How would you describe midwifery as a profession?
(b) Would you recommend the profession to your son/daughter? Please explain your answer
2. Can you please describe the quality of services your partner/wife received from a midwife? Do you think a quality of service differ if a midwife is male or female? Please explain your answer.
3. (a) Do you prefer your partner/wife to be attended by a male or female midwife? Please explain your preference
(b) Your partner/wife preference: To be attended by a male or female midwife? Please explain your answer
4. Have your partner/wife ever experienced different treatment/discrimination by midwife/health care provider because she had a Male/Female child? Please explain your answer
5. Do the midwives explain to you and/or your partner/wife about the progress and procedures during labour, delivery and postpartum period?
(a) Are gender roles considered in treatment options of RMNCH services by a midwife?
6. Give us your opinion on gender involvement in RMNCH; are men and women in your community equitably involved in RMNCH services/awareness programmes?
(a) Please give your knowledge on GBV?
7. Have you and/or your partner/wife ever been involved in any guidance by a midwife on GBV response?
8. Have you or your partner/wife ever experienced discrimination against during seeking RMNCH services on the basis of ethnicity, poverty, age (too young or too old) for expecting or education status?
9. Gender equality: Recent data have shown that there is a difference in average rate of enrolment between men and women in midwifery courses (there are more men are more than women). What do you think could be the causes of these observations?
10. Have you experienced sexual harassment while receiving services at health facility?
11. What approaches/techniques do you think can be applied to ensure gender equality in midwifery profession?

CLOSING STAGE (5 minutes)

- Considering what we have discussed today, do you have any specific suggestions for the MBM-RTz project staff on how to improve gender equity in midwifery profession?
- Is there anything else you want to add or ask that we didn't discuss during the interview?

Thank you so much for participating in this assessment. If there is anything else you wish to share at a later point, please do not hesitate to contact me. *[Insert closing statement]*
